

ALL-NEW from Forbes

Now – use the cutting-edge science of quantitative analysis to virtually eliminate the No.1 reason individual investors make unprofitable decisions.

The *Forbes Aggressive Growth Investor* is a professionals' system of stock picking and market analysis that will...

- ✓ Minimize subjective decision making.
- ✓ Identify stocks expected to outperform the indexes.
- ✓ Tell you with greater certainty when you should consider selling a stock.
- ✓ Reduce your anxiety level in a volatile market.

The *Forbes Aggressive Growth Investor* is a science-based program that virtually eliminates judgment...opinion...and subjective reasoning from the stock picking process by using a proprietary, market-tested computer program. Based upon the science of quantitative analysis, our computer model is able to more accurately forecast a stock's short term performance.

Back tested for a period of 10 years to prove the system's effectiveness.

While the *Forbes Aggressive Growth Investor* is a new service, the computer model behind the system has been in use for over ten years. Here's documented proof this system of quantitative analysis really works:

Over the past 10 years the system beat the S&P 500 in every year except one. On a compounded basis the system yielded more than 4.5 times greater profits.

Beating all major indexes since October 6, 2000 launch

Month	Applying System	S&P	Nasdaq
10/2000	3.32%	1.45%	0.26%
11/2000	-3.29%	- 8.01%	-22.90%
12/2000	9.60%	0.41%	- 4.90%
01/2001	3.53%	3.46%	12.23%
02/2001	-7.37%	- 9.23%	-22.40%
03/2001	-5.66%	- 6.42%	-14.48%
04/2001	8.81%	7.68%	15.01%
05/2001	4.05%	0.51%	-0.27%
06/2001	-0.12%	- 2.50%	2.37%
07/2001	-1.91%	- 1.07%	- 6.17%
Cumulative performance since launch	9.90%	-14.03%	- 39.68%

Put another way:

- ✓ \$10,000 invested with the help of quantitative analysis would have grown to \$239,391!
- ✓ \$10,000 in an S&P index fund grew only to \$51,716!

Discover the Million-Dollar Advantage

Until now, the cost of the sophisticated computer programs required to apply the science of quantitative analysis to an investment portfolio made it an advantage available only to large institutions and their

key accounts. But now, the *Forbes Aggressive Growth Investor* makes this valuable stock-picking tool available to you.

Now, as a Charter Subscriber to the *Forbes Aggressive Growth Investor*, you can be the kind of cold-blooded, disciplined and consistent investor who rides out the storm and goes on to greater profits.

Act now – Save \$305, PLUS get a FREE Report

Just mail the coupon below to start your charter subscription to the *Forbes Aggressive Growth Investor* so you can evaluate it for yourself. In every issue, you'll find our portfolio of 50 of the currently best-to-own growth and momentum stocks. Each month the computer filters and rates some 3000 stocks, identifying the 50 most likely to enjoy continued and significant short term gains, stocks that will hopefully double... triple...and even quadruple in the next six to eighteen months.

Each month, as the computer model recalculates, we add new stocks and recommend selling others.

Act now to become a Charter Subscriber and you'll save \$305 off the single-issue price. Plus with your paid subscription you'll receive a FREE copy of 7 *Growth Stocks to Confound the Skeptics*.

Remember, this is about using science, not judgment to accumulate wealth. It's a system that's exactly right for this volatile stock market.
