

Once a year we play doctor

Doctors and lawyers are traditionally at odds.
Not so at our firm.

When compassion brings us together we are a powerful team.

Once a year we join forces with Mercy Hospital's Mercy Outreach Surgery Team (MOST) to sponsor reconstructive surgery for up to 75 poor children from all parts of Mexico. Our administrative staff works nine months each year coordinating all the logistics leading up to the surgery. Our partners and staff then cook the food and run the recovery center for five days of post-operative care before the children, now healed, return to their villages.

Fixing legal problems is one way we help build your community. Helping fix birth defects is our way that we help make life better in another part of the world.

If you want to help make the world a better place, call us today and we'll put you in touch with someone who will tell you how to get involved with the MOST program.

Sometimes it's the things you do with your spare time that mean the most.
